SIA “G DELIVERY”

PIEDEROŠAS KUSTAMĀS MANTAS – PREČU ATLIKUMU

PIESPIEDU PĀRDOŠANAS VĒRTĪBAS APRĒĶINS

IZSOLES SĀKUMCENAS NOTEIKŠANAI

Novērtēšanas datums: 2025. gada 07. augusts

Vērtējuma pasūtītājs: Maksātnespējas procesa administrators Marina Skorodumova

Par maksātnespējīgā SIA "G DELIVERY"
kustamās mantas - preču atlikumu novērtēšanu

Cienījamā Marina Skorodumovas kundze!

Pamatojoties uz Jūsu, turpmāk - Pasūtītājs, iesniegumu par kustamās mantas novērtēšanu un saskaņoto Darba uzdevumu, ir veikta maksātnespējīgās SIA "G DELIVERY", reģ. Nr. 40203173851, piederošas kustamās mantas, kas sastāv no preču atlikumiem (kosmētika, drēbes, apavi un bižutērija), turpmāk - Objekts, novērtēšana.

Vērtēšanas uzdevums un mērķis - aprēķināt Objekta piespiedu pārdošanas vērtību tā apsekošanas datumā 2025. gada 07. augustā, kas tika veikta uzglabāšanas telpās Rūpniecības ielā 52, Rīgā.

Vērtības aprēķins pamatojas uz vērtētāja rīcībā esošo informāciju par Objektu un par tā vērtību ietekmējošiem faktoriem apsekošanas / novērtēšanas gaitā.

Datu analīzes un veikto aprēķinu rezultātā ir secināts:

Novērtēšanas datumā 2025. gada 07. augustā Objekta aprēķinātā
piespiedu pārdošanas vērtība ir 6 277 EUR, bez PVN
(seši tūkstoši divi simti septiņdesmit septiņi eiro);
piespiedu pārdošanas vērtība ar kopmantas realizācijas nosacījumiem, noapaļojot, ir
5 000 EUR, bez PVN
(pieci tūkstoši eiro).
Šī vērtība spēkā tikai visa Objekta, 3 sarakstu, kopējas pārdošanas gadījumā.

Objekta aprēķinātā vērtība raksturo tās pašreizējā ekonomiskajā situācijā, bet tā neraksturo vērtības izmaiņas pie neizbēgama tautsaimniecības attīstības scenārija paredzamā nākotnē. Šī vērtība ir aprēķināta pie tiem nosacījumiem, kas uzskaitīti vērtējuma atskaitē.

Vērtētājs neuzņemās atbildību par vērtējuma atskaitē neminētu iespējamu apgrūtinājumu ietekmi uz Objekta vērtības izmaiņām, kas varētu atklāties pēc tā novērtēšanas datuma.

Atskaite ir spēkā norādītajā vērtēšanas datumā, tai pievienotie dokumenti paredzēti tikai vērtēšanas atskaitē norādītajam mērķim un nododami tikai ar to saistītām personām.

Vērtējums izstrādāts atsaucoties uz Latvijas Standartu, "Īpašuma vērtēšana" LVS 401:2013, turpmāk - LVS 401:2013.

Tirgus vērtība ir aprēķināta summa, par kādu vērtēšanas datumā īpašumam būtu jāpāriet no viena īpašnieka pie otra savstarpēji nesaistītu pušu darījumā starp labprātīgu pārdevēju un labprātīgu pircēju pēc atbilstoša piedāvājuma, katrai no pusēm rīkojoties kompetenti, ar aprēķinu un bez piespiešanas. (LVS 401:2013. p.2.1.11.)

"Piespiedu pārdošana" ir aktīva atsavināšanas situācijas raksturojums, nevis atšķirīga vērtības bāze. Cena, par kādu pārdevējs piekrīt pārdot aktīvu piespiedu pārdošanas darījumā, atspoguļo konkrētā darījuma apstākļus, nevis teorētiska labprātīga pārdevēja rīcību tirgus vērtības definīcijas ietvaros (LVS 401:2013).

Kustamās mantas realizācija ar kopmantas nosacījumiem ietver sevī visa Objekta realizāciju kopumā kā veselumu vienam pircējam. Līdz ar to nepastāv iespēja realizēt mantu pa daļām, kas sevī ietver papildus izdevumus, veicot saistošos pasākumus (mārketinga, komunikācija, uzglabāšana u.c.).

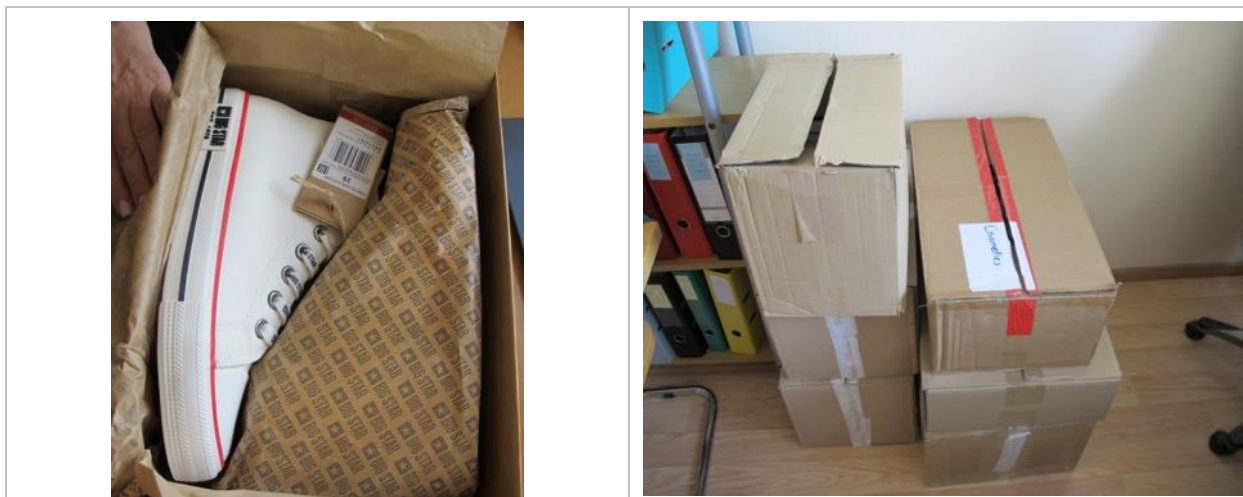

Atskaitē sniegtā informācija attiecas tikai uz šo vērtēšanas atskaiti un to nevar izmantot citiem nolūkiem.

Aprēķinātā vērtība ir precīzākais viedoklis, kādu varēja pieņemt, vadoties no esošās informācijas.

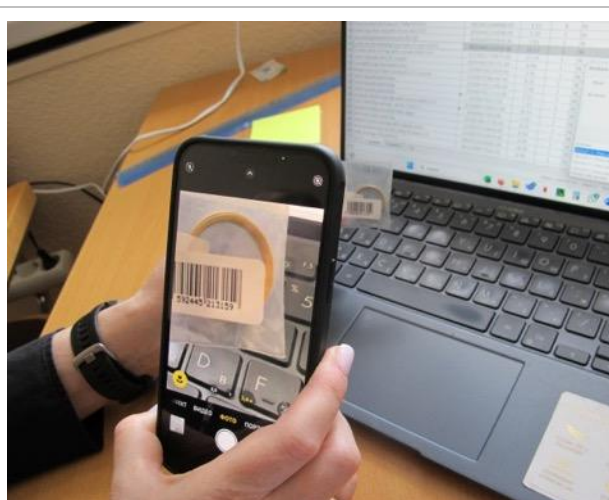

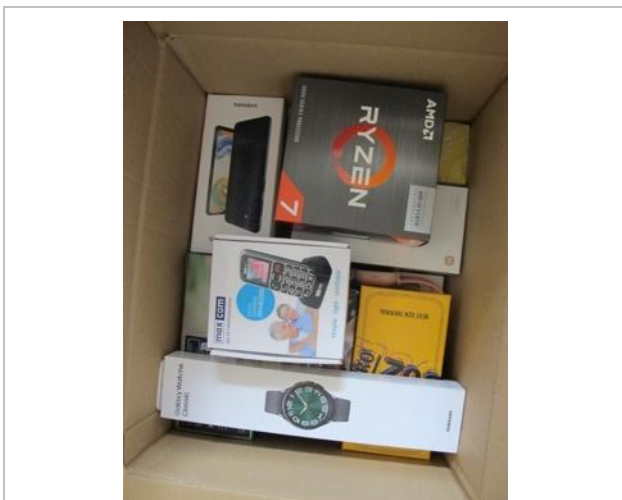

Viedokļa objektivitāti, neatkarību no vērtējuma apmaksas nosacījumiem, kā arī cita veida ieinteresētības, apliecina vērtējuma atskaitē pievienotais vērtētāja neatkarības apliecinājums.

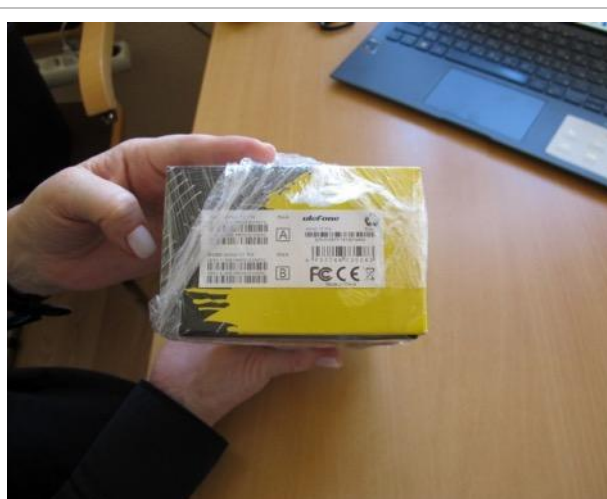

OBJEKTA FOTOFIKSĀCIJAS MATERIĀLI

MSIA "G DELIVERY"

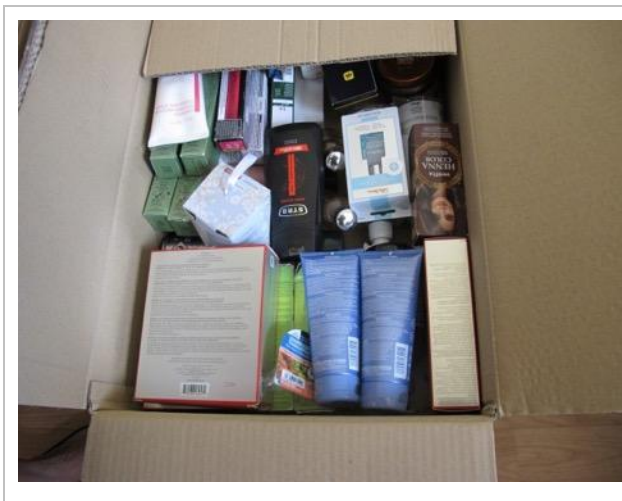

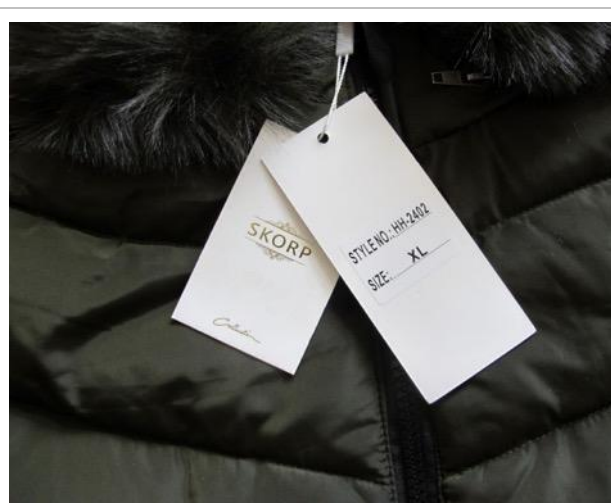

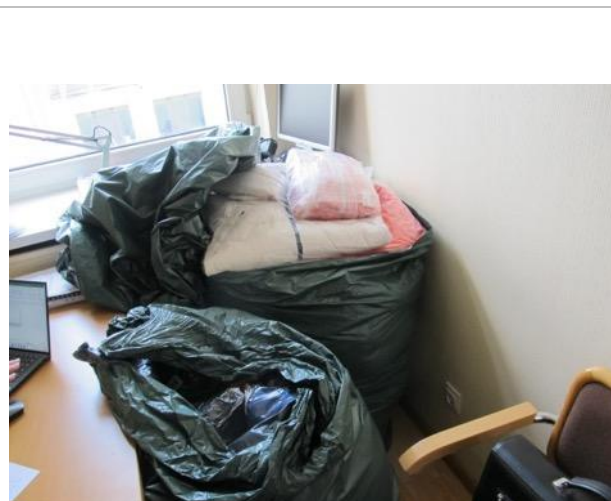

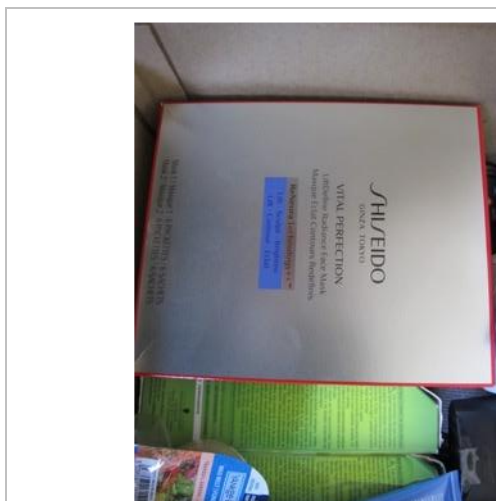

Vērtēšanai ir pieteikti un uzrādīti preču atlikumi, atbilstoši vērtēšanai iesniegtajiem sarakstiem (3 gab). Tiek vērtēti dažādu ražotāju (pārsvarā Austrumāzijas valstīs / reģionos ražota) kosmētika, drēbes, apavi, bižutērija. Kvalitāte nav augsta un cenu līmenis atbilstošs.

Lielākā daļa preču faktiski nav lietotas un tās nav atgrieztas preces pārdevējam pēc izmantošanas. Daļa preču uzņēmuma darbības gaitā nav izņemtas kā pasūtījumi (neizņemtas paciņas), kas praktiski nozīmē, ka tās nav lietotas. Tajā pašā laikā ir arī neliela daļa preču, kas sākotnēji tomēr bija lietotas, vai arī tie bija lietoti atgrieztie pasūtījumi. Precīzi izgatavošanas gadi katrai mantai nav noteikti, šī informācija vērtēšanai nav iesniegta.

Vērtējumā aprēķinos izmantota izmaksu pieeja.
